# CAN-Cy

Civic Action Now for Cyprus

A little about CAN-Cy

In the past months, CAN–CY has been holding events that aimed to engage the community in shaping and developing ideas that can help improve daily life and build a better more cohesive future. We are glad to say it was a success! These events were free and open to the public, and participants came together to share their thoughts and ideas in a structured and democratic environment.

Future Worlds Center

SeeD
CENTRE FOR SUSTAINABLE PEACE
AND DEMOCRATIC DEVELOPMENT

Ideation phase was completed on 28th February.

Our wish is to piece together a better future vision for Cyprus together idea by idea by using innovative digital tools and democratic and scientific methodologies. We aim to build a collective roadmap and empower young people to realise their ideas. We collected visions/ideas towards our ideal future of Cyprus. We reached out to activists, NGO's, local authorities, associations, schools and universities and launched an online campaign where anyone can record a video of themselves explaining their idea in about 1 minute and send it to us. The ideas should be implementable and viable in a reasonable time period and should not require huge sums of money.
We also co-organized 5 separate Mini-SDDP workshops island wide to generate more ideas collectively.
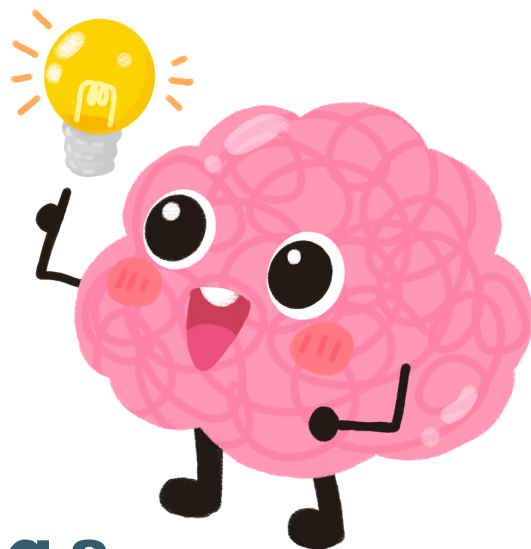

THE RESULTS ARE IN!

59
IDEA AUTHORS
Generated,

121
Solution oriented ideas.

OF THESE 59 IDEA AUTHORS;
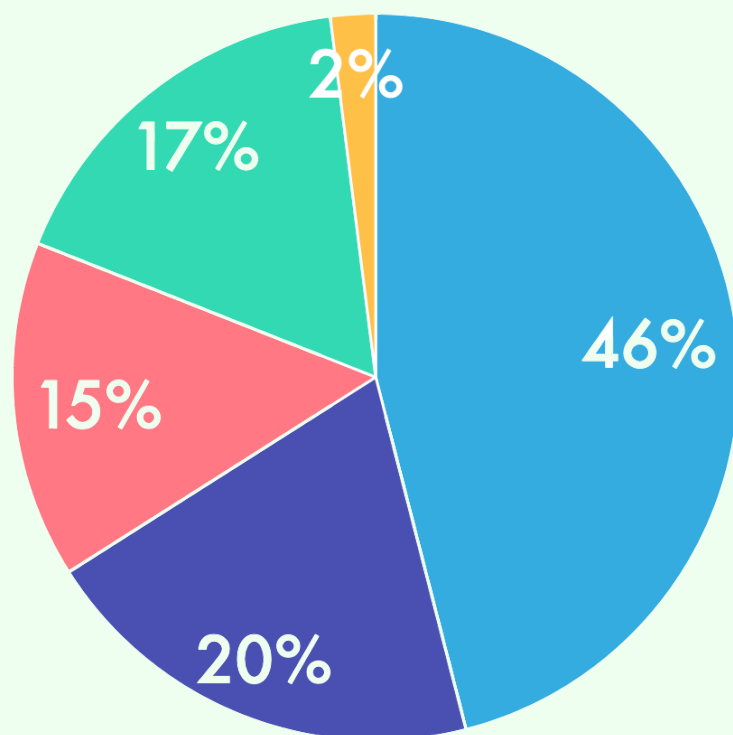

32 OF THEM FEMALE

27 OF THEM MALE

59 authors representing 5 demographic groups

- Other groups including those who live in Nicosia
- Migrants & international students living in Cyprus
- Greek speaking Cypriots outside the capital
- Turkish speaking Cypriots outside the capital
- Armenian Cypriots

21% — Environment

20% — Locality satisfaction & Good governance

27% — Social cohesion & Social inclusion

What's next for CAN-Cy?

PUBLIC VOTING + REFINING+ REALIZATION

VOTING

We engage the public and idea owners with the visions/ideas. We socialise and disseminate the ideas as much as we can. We encourage the public to sign on Pusula digital platform and vote for the ideas/visions they like the most. We also ask experts from different fields to give us their assessment of the ideas. The shortlisted ideas then go through to "Idea Prism", another digital tool, where idea owners asses each other on their potential impact, desirability, importance, viability and probability.

REFINING

The idea owners of the shortlisted ideas were invited to a Structured Democratic Dialogue workshop for two sessions. Through the full SDD process the ideas are refined into a roadmap towards the ideal future of Cyprus. Lastly they will be presented to the local authorities and stakeholders to be implemented.

REALIZATION

We disseminate and advocate for the roadmap for our ideal future Cyprus made up of SMART ideas that can serve as concrete steps towards it. We take it to the decision makers and stakeholders to promote
them. We mentor and support the idea owners to help the realisation and implementation of the ideas.

IT'S NOT TOO LATE TO GET INVOLVED!

BY CHECKING OUT OUR <u>YOUTUBE</u> CHANNEL AND FACEBOOK PAGE, SHARE, LIKE AND COMMENT ON THE IDEAS THAT YOU'D LIKE TO SEE ACTUALIZED.

HELP US PROMOTE THE ROADMAP OR JOIN FORCES WITH THE IDEA OWNERS.
WE BELIEVE THAT ONLY BY WORKING AND DEVELOPING IDEAS TOGETHER WE CAN OVER COME CHALLANGES DEMOCRATICALLY!

Want to keep up with our project?
