### How to read this infographic

This infographic shows the 2021 SCORE values for indicators used to measure Liberia's progress towards SDG 5. Each indicator bar is colour-coded according to the kind of change seen between 2018 and 2021. **Blue** indicates that there was no significant change. **Green** indicates that there was a significant positive change and **red** indicates that there was a significant negative change. For example, the score of 1.1 for the endorsement of SGBV signals a positive change from 2018, while a score of 2.8 for women's extreme victimisation signals a negative change from 2018.
