#### How to read this infographic

This infographic shows the 2021 SCORE values for indicators used to measure Liberia's progress towards SDG 16. Each indicator bar is colour-coded according to the kind of change seen between 2018 and 2021. **Blue** indicates that there was no significant change. **Green** indicates that there was a significant positive change and **red** indicates that there was a significant negative change. For example, the score of 4.5 for meritocracy in public positions signals a positive change from 2018, while a score of 3.6 for confidence in the police signals a negative change from 2018.

This infographic is one of the products of the Liberia SCORE project (2020-2021), which was implemented by the Centre for Sustainable Peace and Democratic Development and the Liberia Peacebuilding Office, and funded by UNDP Liberia.
